Dear Ted:

I have your letter of January 22, confirming the plans for a panel presentation on the Kirtland's Warbler Preserve at the Ann Arbor meeting on March 21.

I note that the three of us on the panel have 35 minutes at our disposal. Since I plan to sketch the general outline of this program and show some slides to illustrate, I think it might be appropriate if I took about 15 minutes and each of the other panelists 10 minutes. I am hesitant to push myself forward in this way, but suspect that the interests of the other two men are somewhat more specialized than mine and, therefore, they might prefer to comment rather briefly.

If you agree and if it is not too much trouble, perhaps it might be best if you would convey this view to them. If there is any further organizing required by me, please do not hesitate to say so.

I consider this presentation a real opportunity to reach an audience that those of us primarily interested in songbirds seldom have access to.

It was a pleasure to see you again, though briefly, at the Audubon Society meeting.

Sincerely yours,

Sincerely yours,

C. T. Black

Waterville, Ohio

Dear Harold:

We are allotting 30 to 35 minutes of the meeting of the Fisheries and Wildlife Section of the Michigan Academy of Science, Arts, and Letters to a panel discussion of the proposed Kirtland Warbler Preserve. The title of the discussion is "The Kirtland Warbler Preserve, An Insurance Plan for Michigan's "Jack-Pine Warbler." On the panel with you will be John Byelich, our district game supervisor from Mio, and Glen Schaap, in charge of state forest administration.

We will expect you to open the subject, outline the problem, and propose the method of attack, using whatever slides, charts, maps, will be helpful. The others will discuss the relation of the proposal to forestry and game management, and assess the practical aspects of carrying out Kirtland Warbler management.

We will meet in the Kellogg Auditorium in Ann Arbor from 9:00 a.m. till 4 p.m., March 21, 1958. I expect to send you a complete program in the near future. The panel is scheduled for 1:55 p.m. One feature of the meeting is the Biologists' Luncheon, held this year in the Vandenberg Room of the Michigan League. Perhaps you would care to have lunch with us there. If so, we can reserve a plate for you.

If there is anything we can do to make this panel a success, please feel free to call on me at any time.

Sincerely yours,

C. T. Black
