SUBJECT

Kirtland's Warbler

FROM

Bill Irvine - Huron-Manistee NF

MESSAGE (WRITE CONCISE MESSAGE. SIGN AND FORWARD PARTS 1 AND 2 TO ADDRESSEE. RETAIN PART 3)

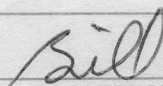

Attached is a copy of a letter to people inquiring about KW Mgt. Area ~~y~~ visits on the Huron NF. It is a bit long winded but for those who will read far enough, it should get the idea across. Would you have any suggestions for improvement? We do send a copy of the Huron map with this but do not mark any locations on it.

The cowbird trapping has gotten under way this week. Haven't heard of any warblers around yet. Possibly the snow that ~~is~~ ~~is~~ on the ground ~~this~~ this AM was ~~not~~ anticipated by the birds and they have in warmers for a while. It looks like after our "warm" winter we are going to have one of those on-again, off again springs with more winter than springs.

Haven't had time to put on the booklet yet but hope to get with it soon.

I plan to be in the warbler range over Memorial Day weekend also, so maybe we will run into each other. I'll probably be camped at the Mack Lake or Wagner Lake Campgrounds.

Dear Bill:

Your letter is excellent and useful to have in hand when people inquire about visits to see the Kirtland's Warbler. In fact, I am making a copy of it to send Dr. James Cope, Earlham College, Richmond, Indiana, who just phoned me about taking a class on a field trip to Mack Lake over Memorial Day week-end. He is an old friend of mine and I agreed to talk to the class at the Mack Lake camp ground on that Saturday afternoon - so I may see you at that time at least. The information about securing a permit in advance may be helpful to him.

Regards,
